Leaflet Description

This leaflet covers type AAA102SC Braille plates used in Elevonic® 411 car operating panel and originally included in SPL 31-AAA25000AAB.

Seven types of Braille plates are listed in this leaflet: AAA102SC1 through AAA102SC7. These plates have five choices of material finishes and variations of floor designation markings. The five choices of material finishes are: **SS8** (stainless steel mirror finish), **SS4** (matte finish to match brushed stainless), **BR8** (brass mirror finish), **BR7** (matte finish to match brushed brass), and **BLK** (black paint finish). Part identification is explained as follows: For example, in AAA102SC1-SS8-PH, AAA102SC1 is part number, SS8 is the material finish suffix standing for stainless steel, and PH stands for floor designation.

When ordering, please provide part number, suffix for material finish, and floor marking if applicable.

Leaflet Revisions

Date Revised	Subject Matter Expert	Reason for Revision
December 15, 2001	Troy Chicoine	New release
September 5, 2012	Joseph D. Zych	Added FS4 material finish

About Spare Parts Leaflets…

This document lists the lowest replaceable units (LRUs) for the standard version of the product. The LRUs are chosen by a team of Otis associates representing engineering and manufacturing.

While goal of this document is to make parts identification as easy as possible, the document cannot be all-inclusive. Elevator and escalator contracts classified as “special” or “custom” are not addressed here. For such contracts, please refer to specified information, the contract folder, TIPs, Field Education Articles, Construction Letters, etc. for further information.

If you have any suggestions about this document, please contact the subject matter expert listed on this page.
